ELEVATE 3D

TO SEE THE WORLD IN 3D,
LET'S CHANGE OUR GLASSES!

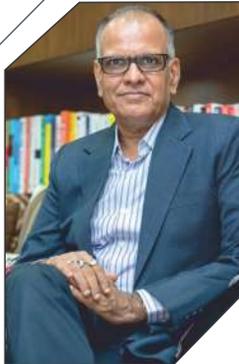

Bold. Beautiful. Brilliant

Aludecor
Metal Composite Panel

An innovative new way to style up your facades, to transform boring and bland to architectural wonders. And if you think that needs a magic wand - here it is, the stunning 3D Collection crafted by Aludecor - the leader in curating 3D Forms in Metal Composite Panels. Architectural wonders that transform them into exciting, inviting spaces, Designed to elevate, Destined to steer a whole new design revolution.

Rain or shine, Aludecor will not lose its sheen! The architect's delight, these allow a free reign to the creative imagination. From classic geometrics to puzzle-inspired designs, these let you create millions of unique designs and patterns that are truly iconic.

CMD's Message

Dear Friend,

Greetings! Building facades have changed from being merely functional to a mode of expression. The increasing demand from the market for better aesthetics, creative options, and innovation in MCP panels inspired Aludecor to constantly evolve and cater to our clients' aspirations. This time we are proud and happy to introduce you to 3D designs in Aludecor MCP Panels, a game-changer in India!

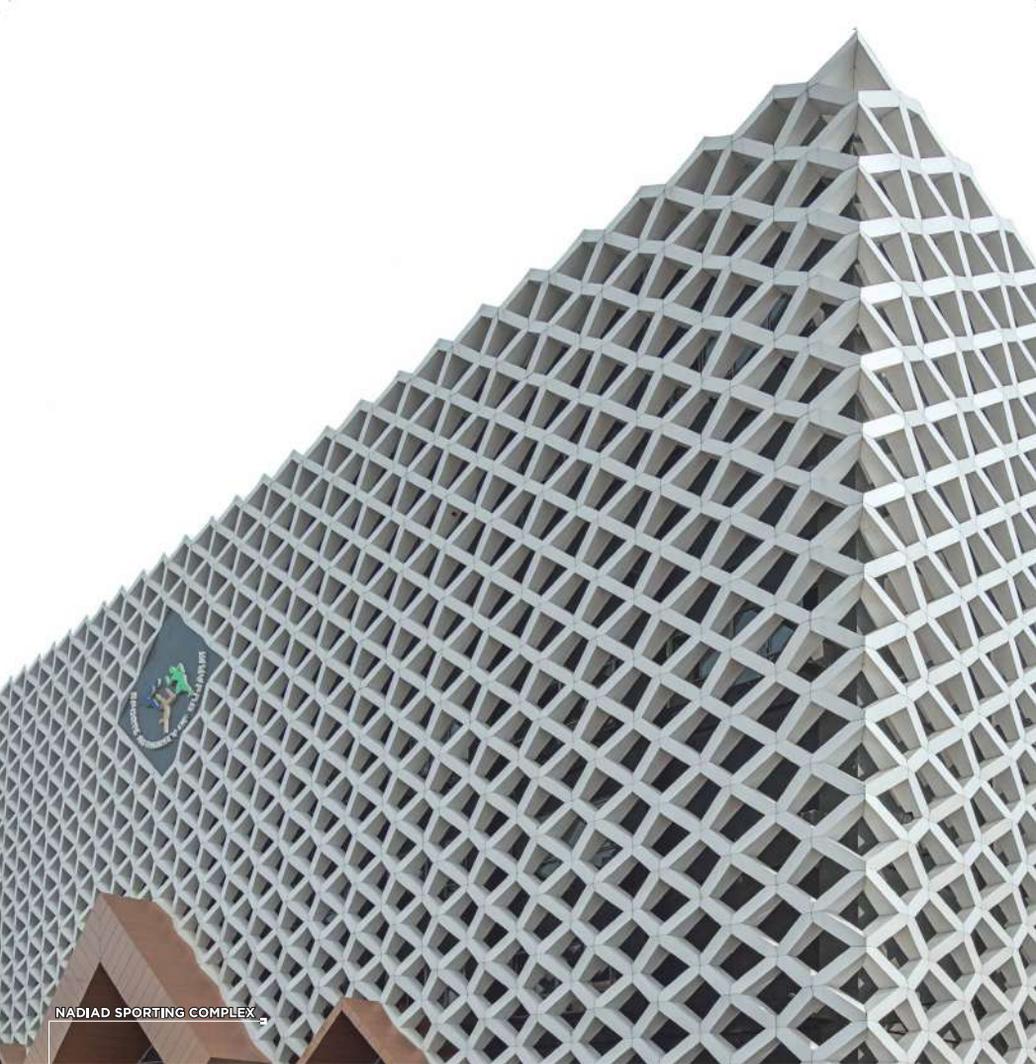

Aludecor is the leader in curating 3D Forms in Metal Composite Panels and our high-performance line has been acknowledged best-in-class by architects, industry leaders and customers. Our designs range from timeless geometrics and contemporary abstracts to tribal inspiration.

We strongly believe in being future-ready with a clear vision, customer-centric approach, timely investment in technology, R&D and innovation. The future beckons with a bouquet of unlimited possibilities and we look forward to moving towards it along with you.

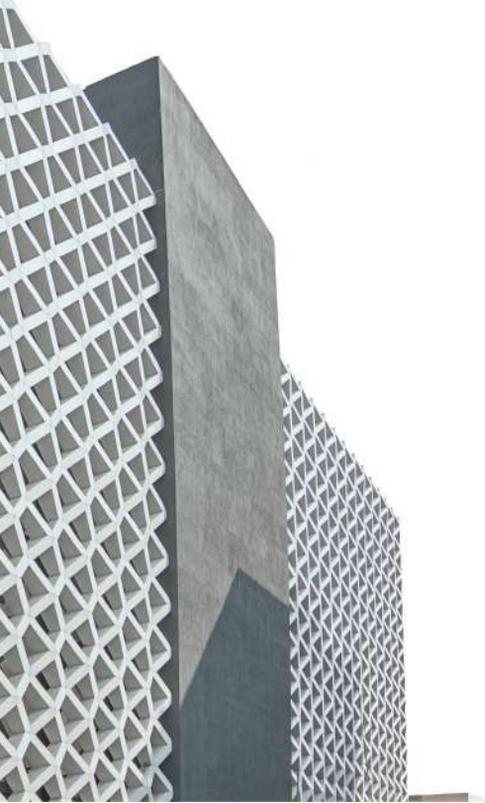

Warm Regards,

Ashok Kr. Bhaiya,
CMD, Aludecor Lamination Pvt Ltd.

Design Philosophy

Our design philosophy is to create engaging experiences that make the landscape come alive. Aludecor 3D Facades are not just about the beauty of form or design, they go beyond that to create icons, icons that the world can look up to. Whether it's sleek, minimalist design or stylish design that scintillates, Aludecor 3D facades straddle different genres of visual thinkers with ease. Creating spaces that are futuristic and not just what the eye sees but the mind too, replete with rich symbolism and imagery.

Each of our 3D-form designs has a story. An inspiration that will work at various levels of the conscious and subconscious mind. Geometrics to designs that draw from tribal designs, there's a deliberate leaning towards aligning the mind to see what you want them to see. And walk away truly inspired!

Roll out a red carpet welcome!

Aludecor 3D facades make everyone feel like a celebrity! After all, architecture today is not just about being admired from afar. It's about creating an immersive experience. An experiential dynamic that Aludecor 3D facades allow, freedom to design elements that transform into a powerful force that activates spaces and re-energizes cultures.

Aludecor 3D Collections

We see shapes every day, but it's fascinating to know how they can affect our emotional response. You will be surprised to know that buildings play a major role in our mood and well-being and are tuned to the geometry and arrangement around us. The visual language speaks to the heart and stimulates the mind. Aludecor 3D Façade Collections offer the following :

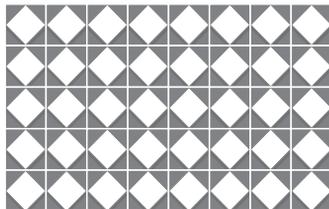

- **The Diamond Collection**
- **The Puzzle Collection**
- **The Prism Collection**
- **The Geometric Collection**
- **The Organic Collection**
- **The Abstract Collection**

The Diamond Collection

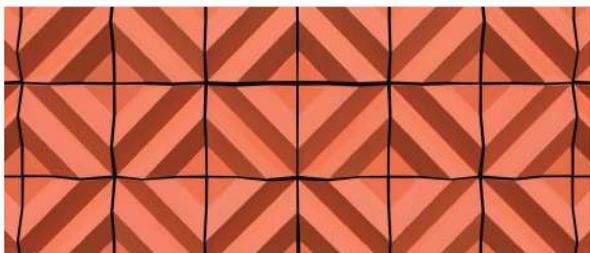

This beautiful crystalline shape has held its sway over the ages. For the first time, it now appears as 3D facades. Fusing together a rich melange of elements, geometric shapes and unexpected creative angles, these Diamond-shaped 3D panels transform facades into outstanding assets.

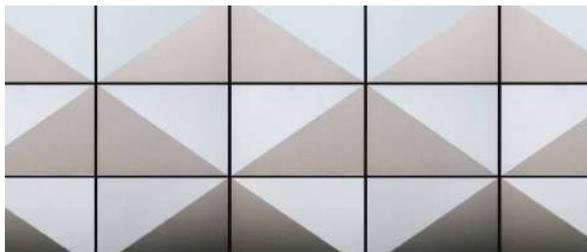

**The Diamond
Collection**

Harlequin

Radiant

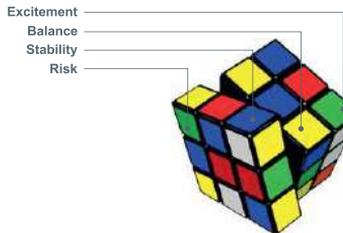

Merry Kite

Stillish

The Puzzle Collection

When you see a puzzle, the tendency is to figure it out! The Puzzle Collection is all about exciting and intriguing the viewer with the possibilities that could be. This collection has everything from the simple to the complex, visuals that enthrall as they evoke. One can find everything from a simple monochrome outline to fully rendered 3D shapes with colour, tone and pattern. Excitement, balance, stability and risk is what these stand for.

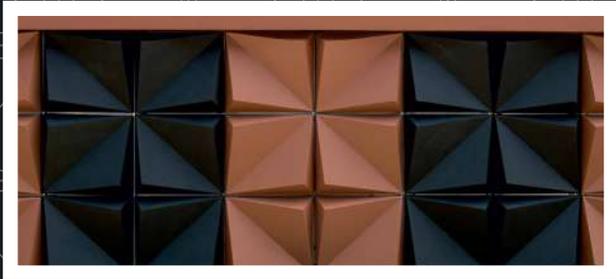

**The Puzzle
Collection**

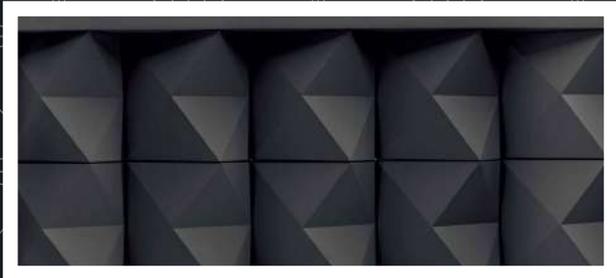

Devil's Puzzle

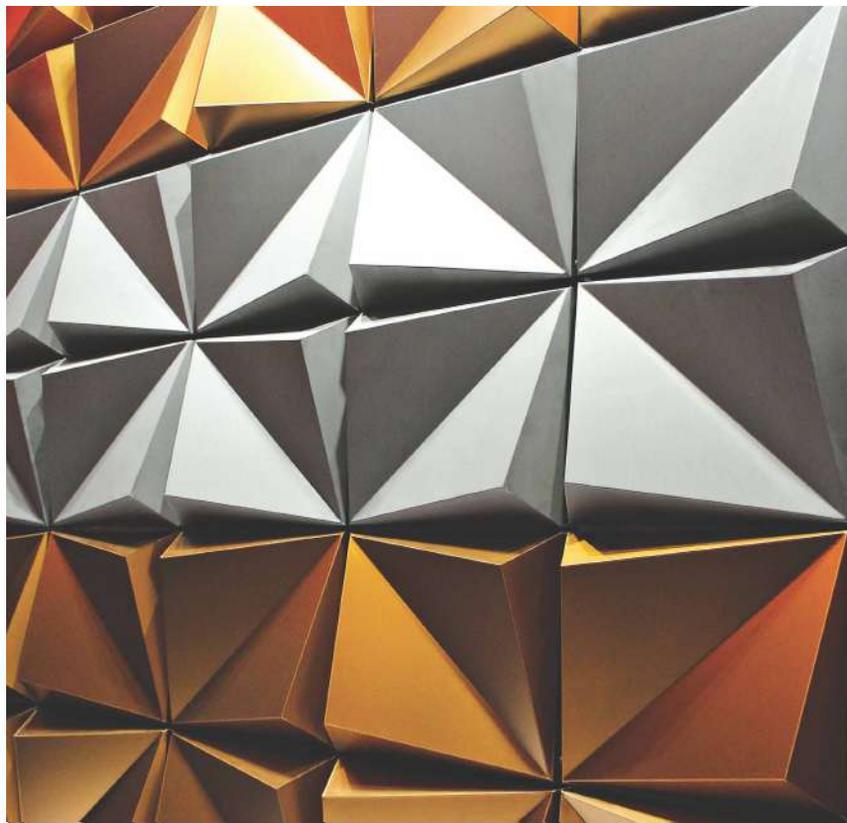

Weaver's Puzzle

Yankee's Puzzle

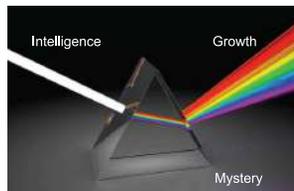

Dutchman's Puzzle

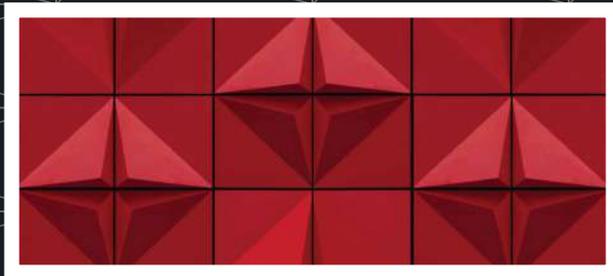

The Prism Collection

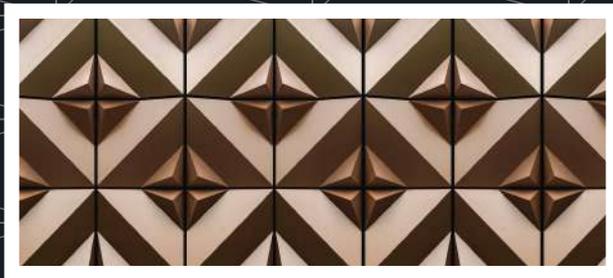

Prisms add a whole new dimension to a landscape. The Prism Collection stands for a brand new perspective and brings an added magical dimension to the landscape. Their allure lies in the fact that they offer an astounding play of light and dark which is enigmatic. These designs look complex and that adds to their appeal. Intelligence, growth and mystery is what a prism implies.

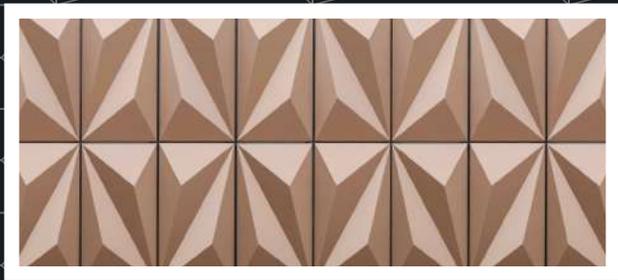

**The Prism
Collection**

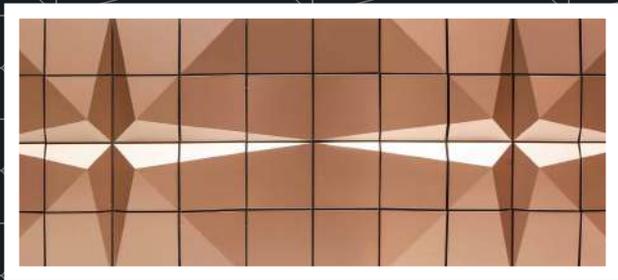

Cosmic

Illusions

Magnificence

Galactic

The Tribal Collection

India's indigenous people, the tribals, have a rich heritage of art and culture. The Tribal Collection draws inspiration from the colourful imagery and style that they have used to express themselves. Rich in symbolism and replete with meaning, these have an exuberance that's infectious. Living close to nature and with a deep bonding with the environment around them and the community, tribal art draws from it. Vignettes of their life, sacred symbols, flora and fauna are some of their favourite themes. Proud of our Indian roots, we have recreated the beauty of these designs to have global appeal. From Warli art patterns and Mithila paintings, you'll find these here with a trendy twist.

The designs include Geo Waves, Tribal Fusion, Crafted Feathers, Native Aztec, Chevron Waves, Tribal Triangles and Arrowheads.

MOVIE TIME, MATUNGA

The Geometric Collection

These fundamental shapes are all around us in the environment and create a sense of familiarity and orderliness.

They make up the basic building blocks of any design and are quite popular.

Use these to create facades that inspire and take us to a whole new dimension of design.

MOVIE TIME

SENCO
GOLD & DIAMONDS

गोल्ड एण्ड डायमंड्स

Squares and Rectangles

These bring order into our seemingly chaotic lives. Standing for sterling values such as discipline, strength, courage, security and reliability, they are a choice for organizations that want to be perceived as trustworthy and embody leadership qualities.

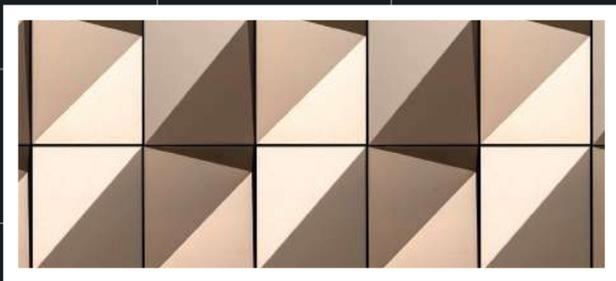

We help you customize your design as per any Geometric shapes: Squares and Rectangles, Triangles, Circles, Ovals and Ellipses.

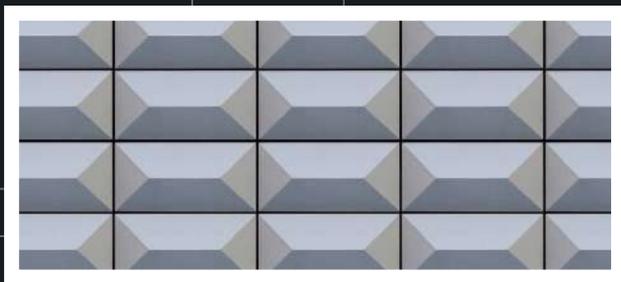

Squares and Rectangles

Mountain Waves

Twisted Dices

Saffire County

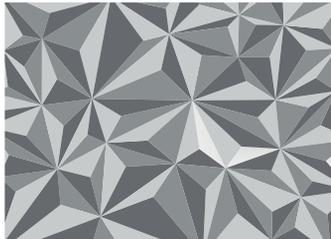

Rhombus Vibe

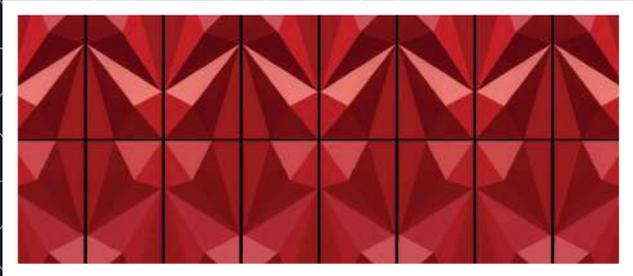

Triangles

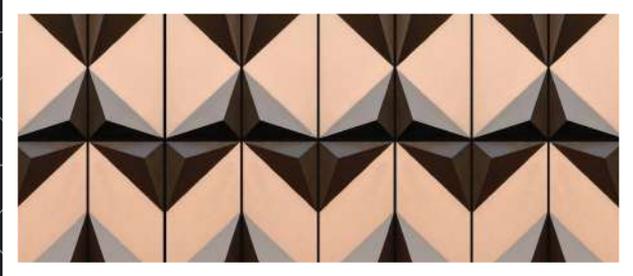

Triangles have a sense of mysticism about them and have been imbued with esoteric qualities by the ancients. In the modern context, they are seen as energetic, dynamic and propel a sense of direction. Triangles stand for excitement, balance and stability.

பிளேட் வில்லி டிஸ்ட்ரிப்யூட்டர்

 Cilashin

Circles, Ovals, and Ellipses

These shapes have fascinated humans from the beginning of time. Naturally occurring in nature in the shape of the moon and other cosmic objects, these draw us closer to our connection with the universe. These stand for eternity, the female element, universe, magic and mystery.

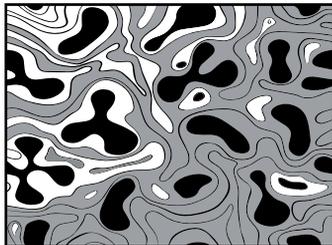

AIHP PALMS, GURGAON

The Organic Collection

Organic shapes evoke the soothing power of nature, the wonders of flora and fauna around us, the landscape, the elements, the universe and so on. These have the tendency to take our minds to the beauty of the outdoors, to shatter the shackles of concrete structures and breathe life in an organic way that merges with the landscape. A oneness that can be comprehended mentally and physically and help you create the same.

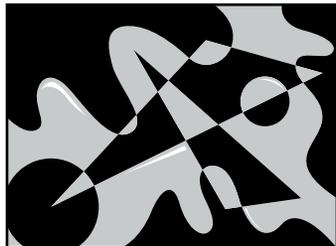

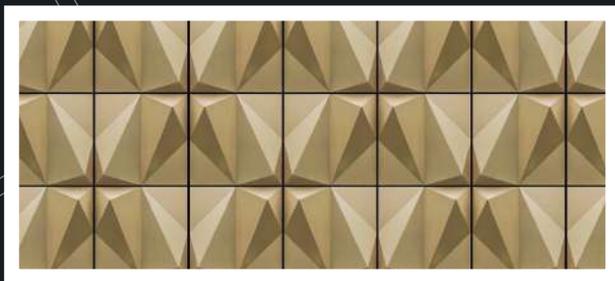

The Abstract Collection

Abstracts emerged as a rebellion to conventional art! These use the visual language in a way that's a departure from other styles by simplifying them. Objects, figures or landscapes are depicted as simple forms that draw the eye in elevated simplicity.

We help you imagine and create facades with an aura of uniqueness, boldness and duality of meaning.

Get a sneak peek with Aludecor's Design Assist!

Everyone who's building a new façade or wants to give a façade a makeover is always excited when we show them how it's going to look. Aludecor Design Assist not only fuels curiosity but is a beautiful preview of the immense possibilities ahead. It goes to prove that design need not be limited but can evolve into far more with a dash of imagination.

What exactly is Aludecor Design Assist?

When you want to see exactly how your façade will look, Aludecor Design Assist comes to your rescue! Projecting lavish 3D views especially for Architects and Fabricators. They can try out a plethora of designs and also experiment with various looks by previewing Aludecor Metal Composite Panels in different shades, textures and finishes. The team also provides technical guidance for ACP installation to ensure proper execution for façade installations.

What should you do?

It's simple and easy! Architects and Fabricators just need to upload technical details and site images from all angles. Our team of experts will then take over to bring you designs that will take your breath away!

MMRDA OFFICE BUILDING, MUMBAI

The MFR System

Aludecor uses a Male Female Rainscreen System (MFR) making execution quick, simple and easy for you! This system has been exclusively designed to facilitate assembling the composite panels on ventilated façades and features Male and Female 6063-T5 aluminium alloy profiles. The shaped trays are fixed over these using a concealed fixing system. The substructure is made entirely of 6063 T5 aluminium profiles. Distinguish your design!

Distinguish your façade!

Now, you can set your imagination free with enviable aesthetic appeal, which is the highlight of Aludecor. Anything is possible from a design perspective. Not only are there are different materials – but each has numerous options in terms of shape, configuration, colour and more. An amazing array of 300+ colours and designs to choose from!

Protection from the external elements

Your building stays safe and secure as Aludecor Systems protect the structure from any elements especially rain as it forms a strong barrier. Air continually circulates upwards through the ventilated cavity, clearing moisture between the panels.

Easy installation and repairs

Whether it's installation or repairs, worry will be the last thing on your mind. Aludecor panels can be installed quickly. In fact, individual panels can be removed for repairs or replacements with ease.

Less building maintenance

Enjoy extended life for your building as the façade protects it. Deterioration is slower as this steers the building away from the elements.

Better thermal insulation

Ensure the safety of your entire building with thermal insulation without compromising on internal floor space. The MFR system is the easiest way to bring this in.

Greater sound-proofing

Get away from the noise! The extra layer that the system brings prevents outside noise from intruding and also improves its acoustic performance. This is extremely beneficial in urban areas that are densely populated.

Reduced load

Aludecor is designed to keep the load on your building structure less. The lightweight aluminium panels ensure that the load on the building structure beneath is far less than masonry-based materials, keeping it safe.

80% Resale value

Enjoy total value for money with Aludecor. Unlike conventional facades that barely have any resale value or have to be completely scrapped, Aludecor 3D panels being made of high-quality aluminium, with greater longevity, have a resale value of up to 80%.

STELLAR COMPLEX, AHMEDABAD

Assurance of good health & safety

100% non-toxic lead-free paints. No VOC gases or carcinogens generated. Safety you can trust! Protects you and your loved ones from Cancer and brain dysfunction and guarantees good health.

Get more value!

Experience extremely long-lasting shine, colour and value for money! Comprising a 70:30 PVDF to Acrylic paint ratio, Aludecor stands strong against all weather conditions and can reflect up to 98% of harmful UV rays preventing panels from fading or rusting.

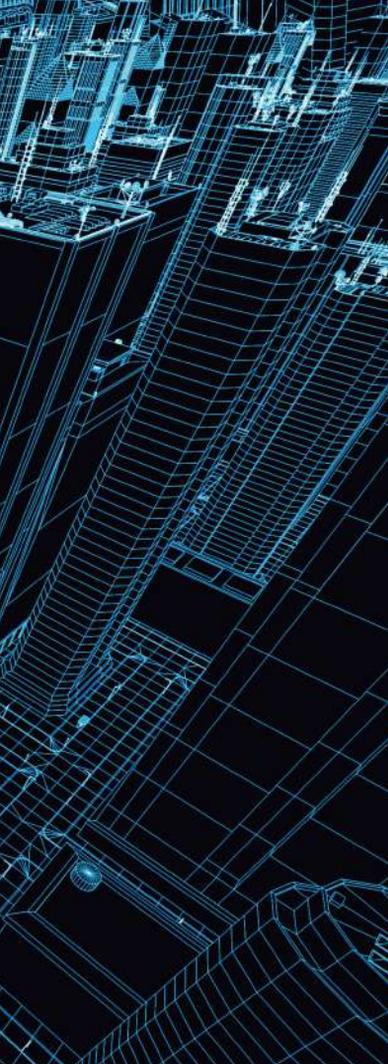

Aludecor Design Assist Services

Aludecor Design Assist Services are manned by a professional team who help you curate parametric 3D façade designs with Aludecor ACPs!

BIM
Technology

Cutting Edge Digital With BIM

Aludecor 3D-formed Facades are at the cutting edge of technology and allow architects to harness the best of digitising. Aludecor Building Information Modelling (BIM) setup has a splendid array of Designing Tools that help to clearly establish the requirements of their dream project and move towards it.

BIM technology is a cutting edge technology that comprises, five Key Elements, namely - Policies, People, Processes, Information and Technology and provides uninhibited data and information inflow. This is an upgrade that the Indian Infrastructure and Construction Industry is embracing.

Aludecor's BIM setup has been designed to facilitate the setting up of Aludecor 3D-form panels with minimum effort and maximum efficiency. It drills down and provides intensive insights on constructability and cost-effectiveness. It maintains co-ordinated designing, planning, operation and construction through 3D models. The greatest advantage is that this is responsive to fast and consistent changes, which helps to keep all the project parties updated and aware at every step of a project.

Benefits of Aludecor ACP Sheets

- Aludecor ACPs offer an array of 300+ colours and designs to choose from.
- Aludecor ensures safety from Cancer and Brain dysfunction and guarantees good health for you and your loved ones as Aludecor ACPs use 100% non-toxic lead-free paints. No VOC gases or carcinogens are produced as well.
- Aludecor ACPs ensure extremely long-lasting shine and colour, which will not fade even after years of usage, as our ACP panel has a 70:30 PVDF to Acrylic paint ratio.
- Aludecor Aluminium Composite Panels pass stringent quality checks, from pre-treatment to finished products; hence you can be worry-free about paint peel off or paint cracking.
- Aludecor assures your peace of mind, as your exterior facade made with Aludecor ACP can withstand all weather conditions and can reflect up to 98% of harmful UV rays preventing them from fading or rusting.
- Aludecor ACPs make your cladding aesthetically appealing as our products have the best flatness in the industry with almost zero undulation.
- Aludecor Aluminium Composite Sheets are fully recyclable. It uses aluminium that will give you 80% discard value!
- Aludecor ensures the fire safety of a building's residents, as you can choose from our range of fire-retardant ACPs.
- Aludecor Design Assist Services can turn your constructional dreams into reality. You can curate parametric 3D façade designs with Aludecor ACPs!

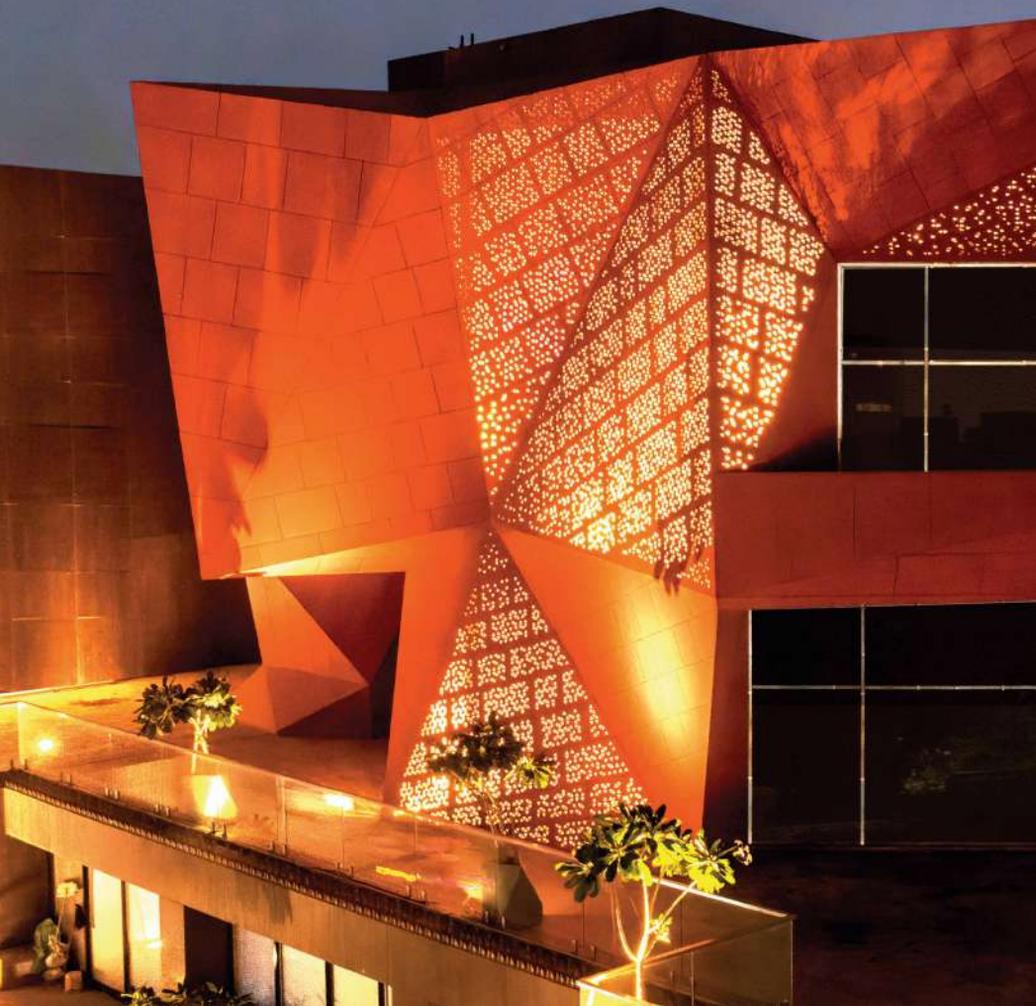

Brand Milestones

- Established in 2002
